Her Excellency  
Koviljka Špirić  
Ambassador of Bosnia and Herzegovina  
to the Republic of Poland

2nd December 2010

Her Excellency,

I would like to thank you very much for the possibility of meeting with you and presenting the idea of establishing cooperation between Collegium Civitas in Warsaw and universities in Bosnia and Herzegovina. We will greatly appreciate your support and assistance in that matter.

I would like to present some basic information about our University:

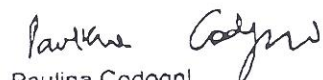

Collegium Civitas is an academic school of social sciences, granting BA, MA and PhD degrees. We are fully recognized by Polish Ministry of Higher Education, accredited by the National Accreditation Commission, and operating under the auspices of the Polish Academy of Sciences (PAN), Poland's main research institution. Collegium enjoys a very good reputation within Poland's scholarly community and has ranked as the best private university in the field of social sciences. Education at Collegium is structured into the programs of International Relations, Sociology, Political Science and Journalism. Of particular interest is our International Relations in English program, the only full degree program of this kind in Poland. We currently have about 1600 students; most are proficient in English. International students at Collegium Civitas may choose from more than 60 courses in English every semester. We are proud of our faculty, which includes leading scholars and practitioners in such fields as post-communist transformations, the EU and its enlargement, diplomacy, social sciences' methodology, media, etc. We are located in the centre of Warsaw, in the landmark Palace of Culture and Science. For more information about Collegium please visit [www.collegium.edu.pl](http://www.collegium.edu.pl) or please find enclosed some catalogues of Collegium Civitas.

We have cooperation agreements with more than thirty foreign universities, mainly in the EU, in North America and Asia, but we are interested in further expanding international cooperation. We wish to expand the international dimension of our studies and we are interested in attracting foreign students on an exchange or paying basis, and study visits for groups of students and scholars. We are ready to discuss other forms of international cooperation, including research and educational projects.

If you see any opportunities for establishing a fruitful cooperation, please let us know whom should we get in touch with to discuss that matter. If you have any questions about Collegium feel free to contact me ([paullina.codogni@collegium.edu.pl](mailto:paullina.codogni@collegium.edu.pl)).

I am convinced that signing an agreement for cooperation (exchange of students and professors could be a perfect beginning) between Collegium Civitas and universities in Bosnia and Herzegovina would be truly beneficial to both of the parties and I am convinced that with your support it will be possible.

Yours sincerely,

Paulina Codogni  
Rector's Plenipotentiary for International Cooperation
